“We have been using MTG for a while now and would not be without it, its kind to the skin but works fast, we use it for a majority of conditions - it's a real all-rounder!”

**Gordon Elliot Racing**

“Anyone that the wet and mud is giving your horses legs problems this is a must... I have been using it on horses that go into the field every day and it is THE only thing that has actually worked. Then I started using it on a 2 year old with sweet itch and already seeing the results. Really recommend.....”
